A treasured golden moment

Jenni saw an internal email at the office and signed up for a *Sprint Start* experience with Eco Concierge, because, as she says, "I was curious – I do some green things, but sometimes we all need a little push in the right direction!"

After a half hour chat with lifestyle manager Kirsten Jack, Jenni went away "very enthused" with a plan to reduce her footprint by at least 10% with three simple, personalised actions – and knowing that she'd have the help she needed to achieve them.

Eco Concierge's support to Jenni included bagging herself £50 of free wine by connecting her new home with the only renewable energy tariff in the UK. Kirsten was also able to help with Jenni's 'later in the year treat' - to create a ring with the birth stones of her children. She loved the info pack and stunning images from an ethical jewellery designer who sources solely from fair-trade mines, and says can't wait to get started.

Many of the products in the goody bag were new to Jenni as well, and met with a warm reception: "I really valued the input from Kirsten – as well as introductions to some fantastic services I probably wouldn't otherwise have found, I feel I have a clearer sense of the green options that would work for my life and I know I have more than make my money back on the cost of the consultation with the ideas and products I have come away with."
